

Dear Traveller,

Due to the major increase in fuel prices, Hurtigruten regret that they are no longer able to absorb these additional costs and have no alternative but to pass these on to all new customers in the form of a fuel surcharge.

We will therefore be levying a surcharge of £5 per person per cruise night for all new bookings.

For customers booking air flights with us, with immediate effect the following fuel surcharges will apply:

Norway - Flights from London Heathrow and London Gatwick - £20 per passenger return.

All other UK / Ireland departure airports - £40 per passenger return.

Greenland - £20 per passenger return.

Spitsbergen - £20 per passenger return.

Please note that as oil prices fluctuate, the above supplements may change.
